## Stòmoglio Soothing after-bite product. Roll-on bottle 20 ml.

The After-Bite Gel is a preparation based on plant-derived extracts and components that, when applied promptly to the affected skin, provides relief after mosquito, fly, wasp, and horsefly bites. It can also be used in case of contact with nettles, jellyfish, and other stinging agents. These plant-derived chamomile, aloe, mallow, and calendula derivatives are responsible for the soothing action. The formulation is specifically designed to facilitate application even on the most delicate skin, whose tolerability has been demonstrated in specific laboratory tests. It does not contain ammonia. Excellent smoothness is ensured by its components, which are designed to provide excellent applicability on the skin, without leaving residue. Suitable for children from 6 months of age.

### How to use:

Lightly massage the affected area, trying to avoid spreading the skin. If necessary, repeat the procedure after 10-15 minutes.

### Warnings:

For external use only. Avoid touching the mouth and eyes with the applicator. If redness or skin irritation occurs, discontinue use. Avoid the baby's bottom. Use only on intact skin.
